## A. Forewords

Since we launched the KNB Scholarship in 2007 as our primary international scholarship program to contribute more in the human resources development in our neighboring developing countries, we have been admitting more than 640 students coming from 64 developing countries around the world to get the scholarship and obtain their master degree in our prominent universities. They have been studying and earning their degree while experiencing the culture and traditions in the most diverse nation in the world.

We know that most of future applicants might be thinking: is spending 3 years in Indonesia to obtain their master degree worth it? And the answer is a resounding yes, getting the KNB scholarship and going to a master degree program in Indonesia is strategically worth it. Their master degree will be one of the most lucrative investments they will make and that KNB scholarship can be vital to their post-college success. The program is very important not only to advance their knowledge and develop their competencies but also in certain degrees will strengthen the relationship between Indonesia and its neighboring developing countries by helping them nurturing their future leader.

Considering the recent development and potentials, we have tried to simplify and make better the KNB scholarship guidance to give the potential applicants as much information as possible on how to apply for the scholarship, and also highlight the best ways to boost their chances of receiving this scholarship. We do hope that this scholarship guidance will adequately assist the potential applicants to apply for the scholarship and to understand and comply with the scholarship rules and regulations.

Thank you,

Hermawan Kresno Dipojono  
Director of Institutional and Collaboration Affairs

## **B. Brief Introduction to KNB Scholarship Program**

The Tenth Conference of Heads of States of Non-Aligned Movement (NAM) countries commenced in Bandung from 1<sup>st</sup> - 6<sup>th</sup> September 1992 concluded, among others, the idea of scholarships provided by the Ministry of Education and Culture of the Republic of Indonesia for the student coming from the NAM member countries. Following that mandate, in 1993 the Government of the Republic of Indonesia started offering postgraduate (master degree) scholarships to students from the NAM member countries.

Since 2002, due to the substantial change in the international political constellation, the use of the term "NAM" in this program was considered irrelevant. The program name then changed to **Kemitraan Negara Berkembang (Developing Countries Partnership) Scholarship** or **KNB Scholarship**. Consequently, the program have been widely offered to students, not only to the NAM member countries, but also to other developing countries such as Thailand, Fiji, Gambia, Senegal, Nigeria, Madagascar, Suriname, Pakistan, Guyana, Myanmar, Laos, Vietnam, and Vanuatu. In fact, this program has attracted more applicants as by 2013, 647 students from 64 countries had been awarded this scholarship.

## **C. Program Objectives**

1. To contribute in the human resource development in the developing countries;
2. To promote deeper cultural understanding between developing countries;
3. To strengthen the relationship and cooperation between developing countries.

## **D. Study Programs Offered**

The scholarship is offered to potential student from developing countries to earn their Master Degree in one of 13 prominent universities in Indonesia. The study programs offered by those universities are listed below (please be advised that the study program offered is differs between university):
