

KPMG INTERNATIONAL CASE COMPETITION

Your thinking could take you further than you imagined

To Hong Kong, for example

The KPMG International Case Competition gives you and three teammates the chance to work on business problems in real time. If your recommendations impress local business leaders, you could travel to Hong Kong on an all-expenses-paid trip to compete in the international final. To get there, you'll have to be able to think critically under pressure and challenge yourself to come up with solutions that are innovative and refreshing.

**Rise to the occasion.
Push yourself.
Go beyond.**
